

Crop maps of Rabi and Kharif 2017-2019

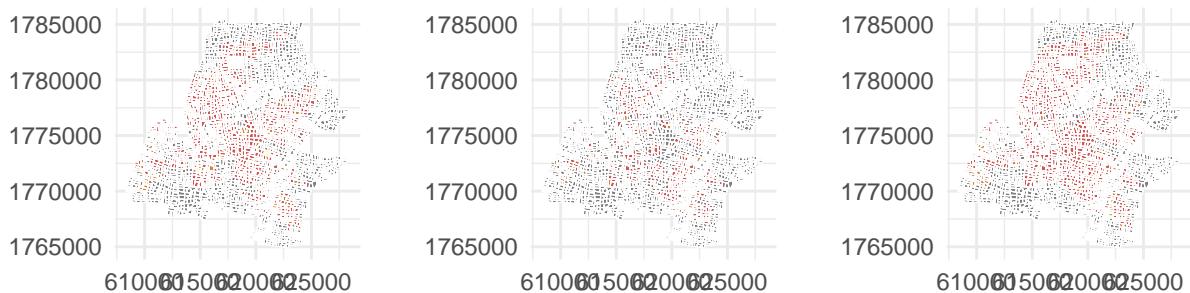

According to data collected by Jain Irrigation Systems Ltd.

Common Crop

Every plot combine several types of crop. The following map signs the most dominant crop in any plot. Crops were grouped into categories of cereals, pulses, vegetables, oilseeds, and ‘other’ . The gray areas are plots with no data. The crop list appears at the end of the report. Rabi seasons maps are shown first, followed by the Kharif seasons.

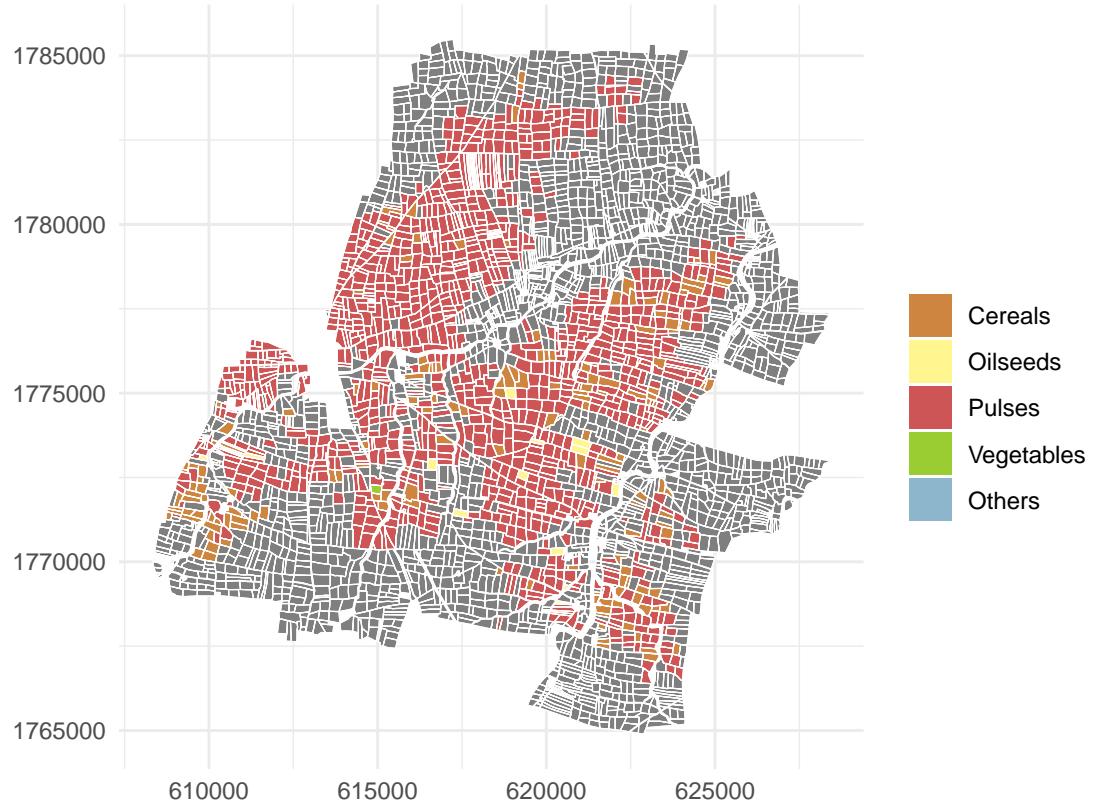

```
#grid.arrange(hhh , ggg , ncol=2)
```
